iNFC User Manual

Setting-up the Device

1) Keep your iPad on and Plug iNFC in the 30-pin connector of it.

2) After viewing the Red LED of iNFC turned on, launch your iNFC apps , which could

be downloaded from the Apple Store.

3) Enter your user name and password to validate your access right.

NFC Read/Write

After you logging in, follow the App instructions and put the contact-less smart card on

top of iNFC when you are asked to do so. The card will be read or written immediately you do it.

Charge iPad Continuously

To charge your iPad, connect USB cable to iNFC macro-USB connector on

side of the device.
